

ClockIn

Track what you *actually* did, not just what you planned. Fast session tracking, history, editing, and lightweight reflection.

The Problem

Lost Time

Students & professionals plan their day, but rarely know where the time actually went.

Friction Kills Habits

Tracking must be fast and interruption friendly to stick.

No Clear Daily Picture

Without a simple record, it is hard to see patterns, wasted time, or where habits need to improve.

What ClockIn Does

Tag-based sessions with a dashboard showing today's totals at a glance.

01

Pick a Tag

Study, Class, Gym, Work, or Errands form the home page or notification.

02

Review & Edit

Tap any session to edit tag, notes, or times.

03

Get Suggestions

Get a notification to switch tags when in a certain location or when a calendar event begins.

04

Dashboard

See time-per-tag totals for today and the week.

DEMO!!!

Thank You
